Extract from the Proceedings of the Government of India in the Home Department (Public), under date Calcutta, the 8th December 1899

RESOLUTION

THE Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject, and therefore entitled to a passport Appeals for assistance are also frequently addressed to His Lordship by destitute Indians who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education

2 In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirablity of providing themselves, before their departure from India, with an authoritative certificate of indentity, in the form appended to this Resolution, signed by the head of the district (in a Presidency Town, the Commissioner of Police) in the case of residents of British India and by the Political Officer in that of residents of Native States For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer (in a Presidency Town, the Commissioner of Police) or Political Officer, as the case may be

STATE TECHNICAL SCHOLARSHIPS FOR NATIVES OF INDIA

1 WITH a view to provide for natives of India the higher technical education which may qualify them to assist in promoting the improvement of existing native industries, and the development of new industries wherever this may be possible, the Government of India are ready, as an experimental measure, to give a small number of Technical scholarships, if promising candidates, well-qualified in some particular branch of industry, present themselves The outlines of the scheme are sketched out below —

2 *Value of the scholarships* —The value of the scholarships has been fixed at £150 a year, in addition to fees payable to the institutions where the scholars will study, and travelling expenses, but Government will consider proposals for increasing it in special cases

3 *Places and periods of tenure* —Each scholarship is tenable for an average period of two years, which may be increased or reduced in special cases

4. The scholarships may be held in Great Britain, on the Continent of Europe, or in America, and are payable from the date of the scholar's arrival in the country which he may select for study.

5 *Subjects of study* —Law, Medicine, Forestry, Veterinary Science, Agriculture and Engineering have been excluded from the scope of the present proposal The scholarships are in the first instance proposed to be used for the encouragement of the mining industry in Bengal, but any other branch of industry can similarly be helped and fostered Industries in which native capital and enterprise are engaged, or likely to be engaged, and in which the trained scholar might, on return to his country, find scope for his skill and ability, will be particularly appropriate for selection

6 *Conditions of award* —The scholarships are tenable by persons who are natives of India within the meaning of section 6 of the Statute, 33 Vic, Cap 3 A competent knowledge of English, or the language of any other country in which the candidate proposes to work and study, is essential to enable him to take full advantage of the course of study

7 In the matter of selection of scholars, Government will be guided by considerations of the candidate's capacity, intelligence, particular interest in and connection with the industry selected, and the assurance that he will continue to devote himself to the subject on his return to India These being matters which cannot be decided by the holding of degrees obtained, by examination, or by competition, no special examination is considered necessary and none will be held But a scholar before nomination should have received the best technical education available in the Province, in the particular industry which he has to study, and no candidate will be considered qualified unless he has displayed an aptitude for technical study

8 No age limit has been fixed But it may be fixed by Government in certain cases

9 The candidates for scholarships will be called upon to submit certificates attesting (*a*) their moral character, (*b*) knowledge of the language of the country in which they elect to study, and (*c*) physical capacity, from recognised persons who may be considered fit to certify to these facts

10 The scholars in England or elsewhere, as the case may be, will be under the control and supervision of the Secretary of State The conditions under which they will hold the scholarships will be similar to those laid down for Government of India scholarships, and power will be retained to cancel a scholarship and to send the scholar back to India, if his progress and conduct be not satisfactory

11 *Returned scholars* —No scholar will be bound on his return to India by any engagement to serve Government or a private firm, and the choice of his career will be in the first instance determined, on his return from Europe, by his own inclination Should any occasion arise, Government will be glad to turn his ability and increased knowledge to account, as teacher in an Industrial School or in other capacities connected with the improvement of local industries

12 Applications for one or more of such scholarships for the development of the mining industry in the first instance, should be made direct to the Director of Public Instruction Full particulars should be furnished as to the past educational experience, training and future requirements of each applicant for a scholarship Applicants should also indicate, if possible, what they wish to work at in their future careers on return to India The scholarships will be awarded by the Government of India on the recommendation of the Local Government

13 Written applications from candidates for the scholarships mentioned in Rule 12 for the year 1904 will be received at the office of the Director of Public Instruction, Writers' Buildings, Calcutta, up to the 1st March 1904

Director of Public Instruction, Bengal.

THE MONSOON OF 1903

THE following report is published for general information.

The 6th January 1904

METEOROLOGICAL SUMMARY FOR THE MONSOON PERIOD OF 1903

THE following remarks are intended to form the usual brief introduction to the rainfall tables, which give full information regarding the rainfall measured during the south-west monsoon months in all parts of the Province Only the more important features of the general atmospheric conditions are discussed, and these only when they show a tendency favourable or unfavourable to rainfall

Throughout the pre-monsoon months, that is up to the end of May, rainfall was continuously in defect in the north of the Province. This was more especially the case in Bihar, where the heaviest fall was 62 per cent. of the normal in February. In the other four months the fall varied between 31 per cent. in January and 44 per cent in April In North Bengal there was more variation, the lightest fall being 9 per cent of the normal in April, and the heaviest, 96 per cent., in March

The scanty rainfall in the north of the Province during these pre-monsoon months was probably connected with a peculiarity in the direction of motion of the shallow depressions to which disturbed weather in the early part of the year is due. These depressions usually cross the Province from the west and follow a course almost due east The tendency in January and February of the present year was for these depressions to recurve southward when approaching the south-western districts, with the result that little or no rain fell in the northern districts, and exceptionally heavy falls for the season occurred in the south-western districts. Owing to this recurving the depressions moved southward or south-westward and the rainfall extended over the Peninsula instead of towards Burma

One well-marked case of the southward movement occurred in the middle of February, but the antecedent conditions were unusually involved, as one disturbance approached from Central India shortly before another disturbance entered the Province from Assam. These appeared to unite and move southward The complicated atmospheric conditions then prevailing are shown by the rainfall commencing in East Bengal extending to North Bengal and Bihar and afterwards to Orissa and Chota Nagpur

The abnormal conditions between the 10th and 18th of February may be roughly accounted for by the advance from Central Asia of a depression which, after crossing the Himalayan range, became better defined over Central India. It may have, at first, recurved eastward from Central India towards the Bay, but it ultimately passed away southward over Southern India The heavier rainfall in the west of the Province occurred during the period in which the recurving appeared to take place.

To whatever cause the rainfall was due, the south-western districts received, relatively much heavier rain than the northern districts or than falls in a normal year.

Weather was more unsettled than usual in March, and rainfall was not unfrequent, but the falls were usually light, and the total fall for the month was deficient in the western districts Thunderstorms were frequent and as usual occurred during the eastward passage of the shallow depressions characteristic of the hot season. The only divisions which received excess rainfall were South-West and East Bengal.

In April rainfall was much in defect, except in Chota Nagpur The deficiency was unusually large in East and North Bengal

Throughout April conditions were abnormal Both pressure and temperature differed largely from the normal At the beginning of the month high pressure developed over the Province, as compared with the Bay and with Burma, with the result that northerly or north-westerly winds prevailed inland. Exceptionally low temperature for the season slowly became general and continued until about the 13th.

During that period showers were of daily occurrence in Chota Nagpur and the adjacent parts of South-West Bengal, viz, the Burdwan, Birbhum and Bankura districts. On the 8th the showers became more general in the central districts, and they entirely ceased on the 11th.

Changes were in progress between the 9th and 13th, and gradually produced a complete reversal of the conditions prevailing in the early part of April. Rainfall almost entirely ceased, and temperature not only became excessive, but one of the most prolonged and severe spells of hot weather on record developed during the latter half of April and continued for some time in May.

The total range of temperature, that is from the lowest minimum to the highest maximum, was 50° over a great part of the Province, and in Bihar was very nearly 60°.

The excessive heat continued during May and was most marked during the first and third weeks. Rainfall was much lighter than usual over the whole Province, except in Chota Nagpur, which received about the usual amount. Local disturbances were numerous, but the rainfall accompanying them was usually light, except between the 25th and 28th, when, probably owing to a cyclonic disturbance in the west of India, rainfall was heavier in Bengal than at any other time during May The total fall in North Bengal was 6·6 inches, in East Bengal 5·8, the normal in both divisions being about 10 inches. Defect

in the western and central districts, except in Chota Nagpur, varied from 1 4 to 2 inches

The hot weather months had therefore been exceptionally dry months, and over the Bay weather had been unusually settled. No cyclonic disturbance of any kind had developed in or approached the north of the Bay These conditions continued during the first half of June, and weather continued settled throughout that month over the Bay.

Local storms with scattered rainfall were an important feature of the weather in June, with the exception of the first two weeks in Bihar, when Patna, Gaya, Shahabad and Saran were almost entirely rainless Two periods of heavy general rainfall occurred in the latter half of the month In the first case the rainfall began in the east about the 16th and continued for several days in Bengal Proper. The cause of the rainfall is not apparent, but there was probably a depression developing over Bengal, as pressure fell during those days from being more than ·1 inch above to about 16 inch below the normal The low pressure area was slowly displaced southwards over the north of the Bay, where there was a very slight depression on the 23rd, but a brisk rise of pressure was general in the depression area on the 24th, and thereafter the distribution was normal.

The second burst of heavy rain was caused by a shallow depression, which appeared over South-West Bengal on the 25th, with a regular system of cyclonic winds. This depression, without intensifying, moved first in a north westerly direction towards Chota Nagpur, then recurved, and passing over the west of Bihar on the 27th broke up on reaching the Himalayas. During its northerly advance moderate rain fell in the western districts The rainfall became more heavy after the recurving commenced, and during the two following days very heavy rain fell in North Bengal

Owing to the heavy rain which fell during these two periods of disturbance and the showers which, though light, were fairly frequent at other times, the rainfall in June was fairly normal and well distributed Chota Nagpur alone received much less than the normal In Bihar, Orissa and South-West Bengal the fall was 80 per cent of the normal, and in East and North Bengal there was excess of more than 10 per cent.

During the first week of July there was similar weather to what has been described for June Ordinary monsoon conditions prevailed in the east of the Province and Assam, and in the western districts local storms were fairly numerous with scattered rainfall.

An important change began about the 8th. It was shown by a fall of pressure which appeared first in the north-east of the Province, and was general over Bengal on the 9th. On the latter date there was a more than usually steep pressure gradient over Bengal with strong southerly winds, and on the 10th the fall of pressure was followed by a brisk rise which, like the previous fall, appeared to move in a direction roughly from north-east to south-west

On the 12th a depression developed over the north of the Bay This depression was the first of a series of four which formed in the north-west angle at intervals of five days and then moved westward passing over Orissa.

While these storms were developing in the north of the Bay, northerly winds were common in Bengal, and with northerly winds during the monsoon season rainfall is either scattered or nil. Consequently over a great part of the Province in July and especially in Bihar and the northern parts of Chota Nagpur rainfall was much below the normal. Orissa, over which the depressions passed, received 23 per cent. excess rainfall, and in North Bengal defect was only 24 per cent. But in Chota Nagpur and East Bengal defect was 40 per cent., in South-West Bengal 50 per cent, and in Bihar the fall was only 32 per cent. of the normal. The average fall in Bihar was 4 inches, the normal being 13. Monghyr received only 20 per cent, Patna, Gaya, Shahabad and Saran not more than 25 per cent., and only three districts in Bihar, viz, Champaran, Purnea and the Sonthal Parganas, received more than 40 per cent The lowest fall in Chota Nagpur was 38 per cent. of the normal in Palamau

While the fourth of the series of small depressions referred to above was affecting weather in Bengal, a change began. The depression moved in a more

northerly direction than the preceding ones had done It followed the same westerly direction as far as Central India, then recurving it re-entered Bengal from the west about the 4th of August General rain began on the 5th in Bihar and continued during the four succeeding days Well marked monsoon conditions became established over the Province, and rainfall was heavy in places

The most noteworthy occurrence subsequent to the important change referred to was the very heavy rainfall in the northern districts and the lower Himalayan slopes on the 12th and 13th, general along the hills, but most marked in North Bengal and the west of Bihar

Generally in August there was a small and somewhat irregular excess in the eastern districts and a small defect in the west In isolated tracts defect was as much as 5 inches, the more important of these areas being in the Midnapore, Singhbhum and Lohardaga districts. Over an irregular and comparatively narrow belt of country, extending from the mouth of the Hooghly north-westward as far as Shahabad, the deficiency averaged 5 inches.

During September, weather was, with but little interruption, of the ordinary south-west monsoon type, that is, rainfall was of almost daily occurrence over a great part of the Province. But the showers were usually light, and the rainfall of the month as a whole was below the average over the northern districts

Two shallow depressions developed over Lower Bengal—one about the middle of the month and the other towards the end These caused heavy rainfall, which extended to the western districts as the depressions moved westward It was chiefly owing to the heavy falls which accompanied these two disturbances that the rainfall for September in the southern districts was above the normal.

That excess was 10 to 20 per cent. of the normal in Lower Bengal and Orissa In Chota Nagpur there was defect of 6 per cent., in North Bengal of 19 per cent., and in Bihar of 29 per cent

Towards the end of September, at a time when the weather was exceptionally settled for the season over the Bay and only scattered showers were falling in Bengal, weather became unsettled in the north of the Province

The disturbance was shown by falling pressure, a strong indraught towards the Himalayan range, and the commencement of heavy rainfall at northern stations From the Darjeeling and Jalpaiguri districts heavy falls were reported on the 25th, and on the following days the disturbance extended southward and westward over Bengal. Numerous thunderstorms occurred as the disturbance progressed, and general rain, heavy in places, fell over the whole Province accompanied by a general fall of temperature.

The importance of this disturbance cannot be over-rated. It was similar in character to that which preceded the formation of the series of depressions at the head of the Bay in July, and, as on that occasion, it was followed by a series of depressions at the head of the Bay. The first of these depressions caused the heavy rainfall in Lower Bengal before the end of September. The second formed over the north of the Bay or entered that area from Burma, and was followed by rainfall not only in Bengal but over a large part of Northern India in October

The average rainfall in Orissa during October, the greater part of which fell during the first ten days of the month, was 12 inches, in Chota Nagpur nearly 9 inches, and in Bihar 5·7 inches. In Bengal Proper the fall was uniform and between 6 and 7 inches.

After the disturbance of the early part of October had disappeared, and rainfall had ceased about the 12th, weather of the transition period became general in Bengal and over the north of the Bay. Only a few unimportant showers fell in Bengal, until near the end of the month when a cyclonic storm which had developed in the extreme south of the Bay turned northwards and passed over Bengal. It was a storm of some severity while off the Madras coast, but as it passed inland before recurving it had to a great extent broken up over the eastern ghats before it approached Bengal. It caused a heavy burst of rainfall in Orissa and general rain inland, except in some of the western districts, where only a few showers fell.

The general character of the monsoon rainfall was as follows —During June heavy rainfall was confined to the eastern districts, and only showers fell in the west of the Province in July Orissa alone received excess rainfall, while in all other divisions there was a large deficiency, greatest in Bihar and Lower Bengal. From August onwards rainfall was more heavy and general In August the northern districts received excess rainfall, in September Lower Bengal showed excess, and there was a not very large defect in the north, and in October the falls were in moderate to large excess over the whole Province

At the end of October the rainfall for the preceding ten months was in slight excess in Orissa, between 5 and 10 per cent in defect in Bengal Proper, 12 per cent in defect in Chota Nagpur, and 25 per cent. in defect in Bihar.

For the monsoon season only, that is from May to October, as the following tables show, Orissa received 7 per cent excess. In North and East Bengal there was a small defect, in South-West Bengal 10 per cent. defect, in Chota Nagpur 14 per cent. defect, and in Bihar 24 per cent. defect —

The mean pressure, temperature, etc, are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground Rainfall reported on any day is for 24 hours preceding 8 A.M of that day

STATE TECHNICAL SCHOLARSHIPS FOR NATIVES OF INDIA

1 WITH a view to provide for natives of India the higher technical education which may qualify them to assist in promoting the improvement of existing native industries, and the development of new industries wherever this may be possible, the Government of India are ready, as an experimental measure, to give a small number of Technical scholarships, if promising candidates, well-qualified in some particular branch of industry, present themselves The outlines of the scheme are sketched out below —

2 *Value of the scholarships* —The value of the scholarships has been fixed at £150 a year, in addition to fees payable to the institutions where the scholars will study, and travelling expenses, but Government will consider proposals for increasing it in special cases

3 *Places and periods of tenure* —Each scholarship is tenable for an average period of two years, which may be increased or reduced in special cases.

4 The scholarships may be held in Great Britain, on the Continent of Europe, or in America, and are payable from the date of the scholar's arrival in the country which he may select for study

5 *Subjects of study* —Law, Medicine, Forestry, Veterinary Science, Agriculture and Engineering have been excluded from the scope of the present proposal The scholarships are in the first instance proposed to be used for the encouragement of the mining industry in Bengal, but any other branch of industry can similarly be helped and fostered Industries in which native capital and enterprise are engaged, or likely to be engaged, and in which the trained scholar might, on return to his country, find scope for his skill and ability, will be particularly appropriate for selection

6 *Conditions of award* — The scholarships are tenable by persons who are natives of India within the meaning of section 6 of the Statute, 33 Vic , Cap 3 A competent knowledge of English, or the language of any other country in which the candidate proposes to work and study, is essential to enable him to take full advantage of the course of study

7 In the matter of selection of scholars, Government will be guided by considerations of the candidate's capacity intelligence, particular interest in and connection with the industry selected, and the assurance that he will continue to devote himself to the subject on his return to India These being matters which cannot be decided by the holding of degrees obtained, by examination, or by competition, no special examination is considered necessary and none will be held But a scholar before nomination should have received the best technical education available in the Province in the particular industry which he has to study, and no candidate will be considered qualified unless he has displayed an aptitude for technical study

8 No age limit has been fixed But it may be fixed by Government in certain cases

9 The candidates for scholarships will be called upon to submit certificates attesting (*a*) their moral character, (*b*) knowledge of the language of the country in which they elect to study, and (*c*) physical capacity, from recognised persons who may be considered fit to certify to these facts

10 The scholars in England or elsewhere, as the case may be, will be under the control and supervision of the Secretary of State The conditions under which they will hold the scholarships will be similar to those laid down for Government of India scholarships, and power will be retained to cancel a scholarship and to send the scholar back to India, if his progress and conduct be not satisfactory

11 *Returned scholars* —No scholar will be bound on his return to India by any engagement to serve Government or a private firm, and the choice of his career will be in the first instance determined, on his return from Europe, by his own inclination. Should any occasion arise, Government will be glad to turn his ability and increased knowledge to account, as teacher in an Industrial School or in other capacities connected with the improvement of local industries

12 Applications for one or more of such scholarships for the development of the mining industry in the first instance, should be made direct to the Director of Public Instruction. Full particulars should be furnished as to the past educational experience, training and future requirements of each applicant for a scholarship Applicants should also indicate, if possible, what they wish to work at in their future careers on return to India The scholarships will be awarded by the Government of India on the recommendation of the Local Government.

13 Written applications from candidates for the scholarships mentioned in Rule 12 for the year 1904 will be received at the office of the Director of Public Instruction, Writers' Buildings, Calcutta, up to the 1st March 1904

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM FOR THE MONTH OF DECEMBER 1903

THROUGHOUT the month weather in Bengal was fine without interruption, the sky was continuously cloudless, and temperature generally below the normal, the day and night being both on an average for the month cooler than usual

The only rainfall occurred in Orissa, and that was in the early days of the month, when a slight disturbance extended northwards from Madras along the west coast The showers were light and scattered and in no case exceeded a third of an inch

While weather was fine and settled in the north of the Bay, it was otherwise in the south, where frequent disturbances occurred Three, at least, at intervals of about ten days, passed over the south of the Bay and affected weather on the Madras Coast, and on one occasion, about the 3rd or 4th, strong winds and a very rough sea developed with only small changes of the barometer A slight depression crossed the Madras Coast near Negapatam shortly after the middle of the month There was some increase of wind force, and moderately heavy rainfall in the neighbourhood of Negapatam, but the disturbance was of brief duration and of only local importance

The third disturbance occurred towards the close of the month, and caused unusually heavy rainfall at Madras The depression moving apparently from the south-east appeared, with but little warning, on the north Ceylon and south Madras coasts on the 29th Defect near the centre was about 1 inch, so the depression as measured by the barometric fall was slight and not likely to have much influence on the weather in Madras The depression, however, instead of moving westward as depressions at that time of the year usually do, recurved northwards, and passing over the eastern Madras districts on the 30th filled up over the Bay to the east of Nellore on the 31st While the recurving was taking place, that is during part of the 30th and 31st, heavy rain fell, at the first along the coast between Negapatam and Madras, and afterwards near Madras only. After the depression had disappeared cloud and rainfall extended northwards to the Circars and light cloud formed in Bengal

The first of these three disturbances and the last were, though in different respects, exceptional in character The former was accompanied by the sudden development of a severe gale over the south of the Bay Seeing this sudden change was not a result of any rapid fall of pressure, it appears reasonable to infer that the area of lowest pressure was a considerable distance to the south, or that the gale was due in part to the rapid rise of pressure which for a day or two previous had been moving southward from Bengal The fall of pressure in the extreme south on the 4th and the brisk rise on the 3rd contributed jointly to the steep pressure gradient which was over the south and centre of the Bay at the same time as the strong winds The depression passed westward into the Arabian Sea, and weather rapidly improved. The rainfall which accompanied the storm in Madras was not more than moderate

The latter of the two disturbances caused only moderate winds, it moved northwards instead of westward, and its chief feature was the heavy rainfall on the Madras coast on the 30th and 31st.

Strong winds were reported from the east of the Bay when the disturbed weather was being experienced in the south-west, so that north east monsoon conditions probably at those times prevailed over the whole of the south of the Bay Except for the strong winds, however, weather was not disturbed on the Burma Coast, and it continued fine and settled in the north of the Bay and in Bengal throughout the month.

Pressure —Oscillations were generally small in Bengal and the north of the Bay, and a conspicuous feature of the disturbances in the south of the Bay was the shallow character of the depressions and the small changes of pressure which preceded their approach. Pressure was therefore steady and the variation from the normal for the month is not large Over the Bay there was defect of 02 inch In Bengal also there was defect, but more irregular and in some cases larger than at coast stations. At the majority of inland stations defect was less than 02 inch

Temperature—Was below the normal in the southern districts during the greater part of the month, and at times there was a rather large defect, notably about the middle of the month In the north of the Province and more especially in the north east, temperature was not so uniformly low, but excess was small, and as there were times, as at the beginning of the month, when defect was large, the mean for the whole month is everywhere below the normal Defect in maximum temperature is about 1°, while in minimum temperatures it ranges up to 2° in the western districts Mean defect is nearly 2° in Orissa, 1° 4 in Chota Nagpur, 1° 1 in South-West Bengal, 1° in Bihar, and half a degree in North and East Bengal and Orissa

Rainfall—Was nil except in Orissa, where a few light scattered showers fell on the 1st and 2nd

The following table gives the average rainfall for each Division, month by month, throughout the year, expressed as a percentage of the normal fall for each month —

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye observations

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No 66, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground Rainfall reported on any day is for 24 hours preceding 8 A M. of that day

X Upon receipt of the declaration in the office of the Commissioner of Police, a certificate shall be prepared in the form prescribed by the Act (Form No 4 appended hereto) Such certificate shall be signed by the Inspector and the Vice-President, and shall be delivered to the owner manager, or agent of the steam boiler inspected on his paying the fees.

XI For every certificate of inspection granted under the Act, the owner, manager or agent of the steam-boiler inspected shall pay to the Commissioner of Police, or, when he is not a member of the Commission, to the Deputy Commissioner of Police, a fee calculated on the horse-power of the steam-boiler according to the rates laid down in rule XVI, and such additional fee in respect of the expense (if any) of the journey of the Inspector to the place where the boiler is situated, as is prescribed in rule XVII

XII —A certificate in Form No 4 granted under this Act shall not be in force—

(1) after the expiration of one year from the date of the inspection on which the certificate was granted, or

(2) after the expiration of the period, if less than one year, for which the boiler and machinery have been stated in the certificate to be sufficient, or

(3) after notice has been given by the Commissioners to the owner, manager, or agent of the steam boiler to which the certificate relates that they have cancelled or suspended it

XIII —There shall be two kinds of inspection of boilers—

(a) When the certificate granted under this Act is about to expire, or when it has been revoked or suspended under section 8 of the Act and the owner desires that it shall be renewed, a thorough examination, inside and outside, shall be made by one of the Inspectors in person, for which purpose the boilers must be empty, cool, and clean and flues swept, and, if required by the Inspector, any parts or settings must be removed for examination of the boiler in every part

(b) An ordinary inspection may be made by an Inspector at any time for the purpose of ascertaining whether a certificate should be revoked or suspended under section 8 of the Act

XIV —The Vice-President and Secretary shall (unless the owner consents to have the boiler ready for inspection on an earlier date approved by the Vice President and Secretary) give one week's notice of every intended examination under rule 13 (a), and warn the owner that if the boiler is not empty, cool, clean, and ready for inspection on the date named, there may be delay in issuing or renewing a certificate, which might thus render the owner or person in charge of the boiler liable to a fine of Rs 500 under section 11 of the Act

(a) Provided that the inspection of boilers in the Raniganj, Giridih, and Gobindpur subdivisions, in the districts of the Sonthal Parganas and Patna, or in the Municipalities of Burdwan and Bhagalpur shall be made during the months of November to May inclusive, and in the towns of Dacca and Narayanganj during the months of June and July, and the Vice-President and Secretary shall give 14 days' notice of the dates of such inspections.

(b) If any boiler needs inspection at other times to that specified in sub clause (a), either as being a new boiler requiring a certificate, or as being a boiler which the owner from any other reason wishes to have inspected, it may, on the application of the owner, manager, or agent, be so inspected

XV —The Vice-President and Secretary shall submit to the Commissioners at each meeting, the Inspectors' reports on the boilers inspected in the form of a diary, which shall be recorded in the office

XVI —Fees for the inspection of boilers and delivery of certificates shall be charged according to the following scale —

	Rs
Boilers up to 10 H -P	12
„ above 10 „ and up to 20 H -P	15
„ „ 20 „ „ 40 „	18
„ „ 40 „ „ 60 „	21
„ „ 60 „ „ 80 „	25
„ „ 80 „ „ 100 „	30
„ „ 100 „ and upwards	35

But if any boiler is certified for a period of less than one year, the fee payable may be reduced to one twelfth of the above amount for each month or part of a month in the said period, provided that the minimum fee shall in no case be less than one-fourth of that shown in the scale

An additional fee of Rs 50 to that of the above will be charged for the inspection of a boiler on a Sunday

Formula for calculating horse-power

For tubular and internally fired boilers, area of grate multiplied by 2 = H -P

For egg ended and externally fired boilers, area of grate multiplied by 1¼ = H -P

XVII – In addition to the above fees, an Inspector's travelling expenses shall be realised from such owners of boilers in the extended jurisdictions as may apply for inspection of their boilers out of season, as well as from owners whose boilers are not ready for inspection on the first visit made on their application, whether in Calcutta and its Suburbs and in Howrah or in the added areas, for every additional visit paid by the Inspector for the completion of inspection.

XVIII —Registers shall be kept in the Boiler Commission Office of all boilers inspected, in which full particulars of the boilers shall be entered in the manner prescribed by the Commissioners, and a number shall be allotted to each boiler corresponding to the number of entry regarding it in the register

The registered number of a boiler is to be conspicuously cut into the front plate by block type three-eighths of an inch large, with a Crown mark, and the initial letter of the register over the figures for Calcutta, Raniganj or other register, as the case may be ; the marks being enclosed by a rectangular figure, 2½ inches in length by 1¾ inches in breadth, made with a chisel ; and the Inspectors are to state in their declarations that this has been done

XIX —The Commissioners shall from time to time, as may seem necessary, make regulations as to the inspection of steam-boilers and the fittings to be required by Inspectors for steam-boilers under the provisions of section 6 of Act III of 1879.

By order of the Lieutenant-Governor of Bengal,

W C. MACPHERSON,

Offg. Chief Secretary to the Government of Bengal.

STATE TECHNICAL SCHOLARSHIPS FOR NATIVES OF INDIA

1. WITH a view to provide for natives of India the higher technical education which may qualify them to assist in promoting the improvement of existing native industries, and the development of new industries wherever this may be possible, the Government of India are ready, as an experimental measure, to give a small number of Technical scholarships, if promising candidates, well qualified in some particular branch of industry, present themselves The outlines of the scheme are sketched out below —

2 *Value of the scholarships* —The value of the scholarships has been fixed at £150 a year, in addition to fees payable to the institutions where the scholars will study, and travelling expenses, but Government will consider proposals for increasing it in special cases

3 *Places and periods of tenure* —Each scholarship is tenable for an average period of two years, which may be increased or reduced in special cases.

4. The scholarships may be held in Great Britain, on the Continent of Europe, or in America, and are payable from the date of the scholar's arrival in the country which he may select for study

5 *Subjects of study* —Law, Medicine, Forestry, Veterinary Science, Agriculture and Engineering have been excluded from the scope of the present proposal The scholarships are in the first instance proposed to be used for the encouragement of the mining industry in Bengal, but any other branch of industry can similarly be helped and fostered Industries in which native capital and enterprise are engaged, or likely to be engaged, and in which the trained scholar might, on return to his country, find scope for his skill and ability, will be particularly appropriate for selection

6 *Conditions of award* — The scholarships are tenable by persons who are natives of India within the meaning of section 6 of the Statute, 33 Vic, Cap 3 A competent knowledge of English, or the language of any other country in which the candidate proposes to work and study, is essential to enable him to take full advantage of the course of study

7 In the matter of selection of scholars, Government will be guided by considerations of the candidate's capacity, intelligence, particular interest in and connection with the industry selected, and the assurance that he will continue to devote himself to the subject on his return to India These being matters which cannot be decided by the holding of degrees obtained, by examination, or by competition, no special examination is considered necessary and none will be held But a scholar before nomination should have received the best technical education available in the Province, in the particular industry which he has to study, and no candidate will be considered qualified unless he has displayed an aptitude for technical study

8 No age limit has been fixed But it may be fixed by Government in certain cases

9. The candidates for scholarships will be called upon to submit certificates attesting (*a*) their moral character, (*b*) knowledge of the language of the country in which they elect to study, and (*c*) physical capacity, from recognised persons who may be considered fit to certify to these facts.

10 The scholars in England or elsewhere, as the case may be, will be under the control and supervision of the Secretary of State. The conditions under which they will hold the scholarships will be similar to those laid down for Government of India scholarships, and power will be retained to cancel a scholarship and to send the scholar back to India, if his progress and conduct be not satisfactory

11. *Returned scholars* —No scholar will be bound on his return to India by any engagement to serve Government or a private firm, and the choice of his career will be in the first instance determined, on his return from Europe, by his own inclination Should any occasion arise, Government will be glad to turn his ability and increased knowledge to account, as teacher in an Industrial School or in other capacities connected with the improvement of local industries

12. Applications for one or more of such scholarships for the development of the mining industry in the first instance, should be made direct to the Director of Public Instruction. Full particulars should be furnished as to the past educational experience, training and future requirements of each applicant for a scholarship. Applicants should also indicate, if possible, what they wish to work at in their future careers on return to India The scholarships will be awarded by the Government of India on the recommendation of the Local Government.

13 Written applications from candidates for the scholarships mentioned in Rule 12 for the year 1904 will be received at the office of the Director of Public Instruction, Writers' Buildings, Calcutta, up to the 1st March 1904.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 22nd January 1904, and is hereby promulgated for general information —

Act No. I of 1904.

An Act to provide for the regulation of the possession and sale of all poisons in certain local areas, and the importation, possession and sale of white arsenic generally

Whereas it is expedient to make provision for regulating the possession and sale of all poisons in certain local areas, and the importation, possession and sale of white arsenic throughout the whole of British India, It is hereby enacted as follows —

Short title and extent

1 (*1*) This Act may be called the Poisons Act, 1904, and

(*2*) It extends to the whole of British India

Poisons generally.

Power to regulate possession for sale and sale of any poison in certain areas

2. (*1*) Subject to the control of the Governor General in Council, the Local Government may, by rule, regulate within the limits of any municipality or cantonment the possession for sale and the sale, whether wholesale or by retail, of any specified poison

(*2*) In particular, and without prejudice to the generality of the power conferred by sub-section (*1*), rules made thereunder may provide for, amongst other matters,—

(*a*) the grant of licenses to possess any specified poison for sale, wholesale or by retail, and the fixing of the fee (if any) to be charged for such licenses,

(*b*) the classes of persons to whom alone such licenses may be granted;

(*c*) the classes of persons to whom alone any such poison may be sold,

(*d*) the maximum quantity of any such poison which may be sold to any one person,

(*e*) the maintenance by vendors of any such poison of registers of sales, the particulars to be entered in such registers, and the inspection of the same,

(*f*) the safe custody of such poisons and the labelling of the vessels, packages or coverings in which any such poison is sold or possessed for sale, and

(*g*) the inspection and examination of any such poison when possessed for sale by any such vendor

(*3*) Any substance specified as a poison in a rule made under this section shall be deemed to be a poison for the purposes of this Act

White Arsenic.

Power to prohibit importation into British India of white arsenic except under license

3 The Governor General in Council may, by notification in the Gazette of India, prohibit, except under and in accordance with the conditions of a license, the importation of white arsenic into British India, and may, by rule, regulate the grant of licenses and prescribe the conditions to be imposed thereby under this section

Power to regulate possession for sale and sale of white arsenic throughout province

4 (*1*) Subject to the control of the Governor General in Council, the Local Government may, by rule, regulate within the whole or any part of the territories under its administration the possession for sale and the sale, whether wholesale or by retail, of white arsenic

(*2*) In particular and without prejudice to the generality of the power conferred by sub-section (*1*), rules made thereunder may provide, amongst other matters, for all or any of the matters specified in section 2, sub-section (*2*).

(*3*) Rules made under sub-section (*1*) may further provide that no person shall sell any powdered white arsenic unless the same is, before the sale thereof, mixed with soot, indigo or Prussian blue in the proportion of half an ounce of soot, indigo or Prussian blue at least to one pound of the white arsenic, and so in proportion for any greater or less quantity.

Provided that, where such arsenic is stated by the purchaser to be required for some purpose for which such admixture would, according to the representation of the purchaser, render it unfit, such arsenic may be sold, without such admixture, in a quantity of not less than ten pounds at any one time

Power to regulate possession of white arsenic in certain tracts

5 (*1*) The Local Government, with the previous sanction of the Governor General in Council, may further, by rule, regulate the possession of white arsenic in any local area in which murder by poisoning with that drug or the offence of mischief by poisoning cattle therewith appears to it to be of such frequent occurrence as to render restrictions on the possession thereof desirable

(*2*) In making any rule under sub section (*1*), the Local Government may direct that any breach thereof shall be punishable with imprisonment for a term which may extend to one year, or with fine which may extend to one thousand rupees, or with both, together with confiscation of the white arsenic in respect of which the breach has been committed, and of the vessels, packages or coverings in which the same is found.

FINAL FORECAST ON THE SUGARCANE CROP OF BENGAL, 1903

THE following note is published for general information.

A. EARLE,

Secy. to the Govt. of Bengal.

The 25th January 1904.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Final Forecast on the Sugarcane Crop of Bengal, 1903.

Character of the Season.—From the beginning of October to the end of the cane planting season drought prevailed throughout the Province except in the Orissa and Chittagong Divisions and in parts of the Burdwan, Presidency and Dacca Divisions, where sufficient rain fell in January, February and March for planting canes. In April and May also rainfall was in defect everywhere except in Chota Nagpur, and the deficiency continued through June all over the Province save in North Bengal, in the North Gangetic

districts of Bihar, in some parts of the Presidency Division and in Dacca, Mymensingh, Tippera and Noakhali During the cane-growing season, that is, from June to November, the conditions were particularly favourable for this crop, and the canes that had been planted gave much better results than had been anticipated at first. In December there was practically no rain, which is a condition favourable for ripening and harvesting

2. *The area planted* was affected by the unfavourable conditions that prevailed at the early part of the season, the estimated area this year being 645,400 acres against 673,500 acres planted in 1902 and against 690,100 acres, the normal area under sugarcane. The normal area has been raised in this report from 689,100 acres to 690,100 acres owing to a revision made by the Collector of Bankura.

3. *Character of the Crop* —As will appear from Appendix I, the crop in 16 districts, viz, in Birbhum, Bankura, Rajshahi, Dinajpur, Rangpur, Pabna, Dacca, Mymensingh, Faridpur, Patna, Gaya, Sonthal Parganas, Cuttack, Balasore, Hazaribagh and Singhbhum, is estimated at or above the normal. In nine districts, viz., in Hooghly, 24-Parganas, Tippera, Shahabad, Champaran, Bhagalpur, Purnea, Malda and Manbhum, the crop is estimated at between 90 and 99 per cent. In the remaining districts the estimate is from 60 to 89 per cent. Since the publication of the preliminary forecast in August, prospects improved in 10 districts, remained stationary in 29 and deteriorated in 6 According to the present estimate of the District Officers, the outturn of the crop for the whole Province comes to 92 per cent., which I had anticipated in the preliminary forecast. Considering the favourable weather which prevailed at the end of the season, I am inclined now to raise the estimate by another 2 per cent, *i e.*, to a 15-anna crop

4 *Gross outturn* —Accepting the provincial outturn to be 94 per cent of the normal, the probable gross outturn of cane *gur* or raw sugar at 22 cwts per acre, comes to 13,346,900 cwts, as compared with 13,631,600 cwts produced last year

5 *Other sources of sugar.*—The information available on this subject is still very incomplete. The total amount of raw sugar or *gur* produced in these Provinces from date-palm is estimated by the District Officers at 2,292,317 cwts, and that from palmyra-palm and other sources at 7,109 cwts.

Offg. Director of the Dept. of Land Records and Agriculture, Bengal.

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye observations

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day

⌓, dew.

(a) Provided that the inspection of boilers in the Raniganj, Giridih and Gobindpur subdivisions, in the districts of the Sonthal Parganas and Patna, or in the Municipalities of Burdwan and Bhagalpur shall be made during the months of November to May inclusive, and in the towns of Dacca and Narayanganj during the months of June and July, and the Vice-President and Secretary shall give 14 days' notice of the dates of such inspections.

(b) If any boiler needs inspection at other times to that specified in sub-clause (a), either as being a new boiler requiring a certificate, or as being a boiler which the owner from any other reason wishes to have inspected, it may, on the application of the owner, manager, or agent, be so inspected.

XV.—The Vice-President and Secretary shall submit to the Commissioners at each meeting, the Inspectors' reports on the boilers inspected in the form of a diary, which shall be recorded in the office.

XVIII.—Registers shall be kept in the Boiler Commission Office of all boilers inspected, in which full particulars of the boilers shall be entered in the manner prescribed by the Commissioners, and a number shall be allotted to each boiler corresponding to the number of entry regarding it in the register.

The registered number of a boiler is to be conspicuously cut into the front plate by block type three-eighths of an inch large, with a Crown mark, and the initial letter of the register over the figures for Calcutta, Raniganj or other register, as the case may be, the marks being enclosed by a rectangular figure, 2½ inches in length by 1¾ inches in breadth, made with a chisel, and the Inspectors are to state in their declarations that this has been done.

XIX.—The Commissioners shall from time to time, as may seem necessary, make regulations as to the inspection of steam-boilers and the fittings to be required by Inspectors for steam-boilers under the provisions of section 6 of Act III of 1879.

MISCELLANEOUS REVENUE DEPARTMENT

MISCELLANEOUS BRANCH

THE HON'BLE MR C E BUCKLAND C I E

Dated Calcutta, the 28th January 1904

IN supersession of the rules published in the Board's Notification No 1190B, dated the 11th June 1898, and with reference to clause 11 of the rules published in Notification by the Government of Bengal No 1225 S R, dated the 21st February 1898, the following revised rules are laid down to regulate the export of opium by sea from Calcutta —

1 Opium may be exported by sea from the port of Calcutta if it has been purchased from the Government at a public sale held by the Board of Revenue, and is covered by a pass or certificate granted by the Board A certificate is a document authorising the Collector of Customs to allow the shipment of the opium specified in it The currency of a certificate is four days, exclusive of its date of issue, and exclusive of Sundays and Custom House holidays No pass or certificate for the export of opium will be issued on the same day on which the opium has been sold

2 Shipping bills for exportation of opium must be printed in red ink and presented at the Custom House in duplicate, accompanied by a certificate in such form as the Board may direct The duplicate on which the pass is granted will be returned to the shipper to obtain delivery from the opium godowns, the original being forwarded to the gate officer on the wharf to expedite the passing of the opium out of the Custom House

3 If any opium covered by a certificate is not removed from the Presidency Godowns within a period of four days from the date of the issue of the certificate, the holder of the certificate must, within 24 hours next after the expiry of the said period, apply to the Board of Revenue for a fresh certificate

4 If any opium has been removed from the Presidency Godowns within the said period of four days, and has been passed out by the Customs authorities for export, but has not been shipped within the said period by reason of the opium being shut out from the ship in which it was intended to be shipped, or for any other reason, the shipper must, without delay, apply to the Board for a fresh certificate, and must, pending the issue of such certificate, either (*a*) return the opium to the Presidency Godowns, with the permission of the Collector of Customs, or (*b*) keep it, with the permission of the said Collector, under sealed hatches at a mooring ghat to be fixed by the Superintendent of the Calcutta Customs Preventive Service

5 A charge of ten rupees shall be made for the services of the Customs Officer deputed to supervise the returning of opium to the Presidency Godowns, or the sealing of hatches, in pursuance of rule 4 of these rules

6. (*a*) On ordinary working days, no treasury receipt in payment of opium, and no pass, will be accepted by the Board after 3-30 P M, and no certificate will be granted after 4 P M.

(*b*) On Saturdays, no receipt or pass will be accepted after 1-30 P M, and no certificate granted after 2 P M

(*c*) A certificate is not transferable, and no one but the person named on the face of it by the Board will be entitled to export opium on it

7 The certificates granted by the Board are to be returned to the Board, within thirty days, duly cancelled

8. A fee of five rupees will be charged to a shipper on presentation of shipping bills after 4 P.M. on the day of clearance of the China steamer.

9 Opium intended for export, which is not cleared from the godowns before 4-30 P M, shall be conveyed to the steamer or ship from the ghat opposite the opium godowns in covered cargo-boats with properly secured hatches

10. As soon as the Intendant is aware that clearances will be made after 4-30 P M, he shall make immediate report to the Collector of Customs, who will at once appoint one or more Preventive Officers, as may be necessary, to be in attendance at the ghat at which the cargo-boats lie In his report the Intendant shall mention the probable number of chests which will be removed during the evening, and each day, as long as clearances are going on, he shall furnish the Collector of Customs with a similar report

11 The Preventive Officer at the ghat shall examine all boat-notes and chests, and see the latter placed in the hold of the cargo-boat He shall then secure and seal, with a distinctive mark, the hatches or other openings or doors of the cargo-boat by which access may be had to the hold, before allowing the boat to proceed to the steamer or ship He shall also make an entry in the boat-note, specifying that the hatches or other openings or doors have been sealed

12 The Preventive Officer on board the receiving steamer or ship shall carefully examine the seals affixed to the hatches or other openings or doors of a cargo-boat laden with opium, as soon as the boat arrives alongside the vessel, and shall not allow the seals to be broken in any case until he is prepared to receive the opium on board, and to superintend the removal of the chests from the hold of the cargo boat

13 If it appears to the Preventive Officer on board the receiving vessel that the seals placed on the hatches or other openings or doors of a cargo-boat have been broken in transit, or have been in any way tampered with, he shall immediately bring the matter to the notice of the officer in charge of the vessel, and shall examine each chest carefully If any theft of opium is discovered, the Preventive Officer shall make an immediate report to the River Police and to the Collector of Customs, mentioning at the same time the number of the cargo-boat and the name of the owner and *manjhi*

14 A shipper who removes his chests of opium from the Government premises after 4-30 P.M shall be required to pay a fee of two rupees for any number of chests up to twenty, three rupees for any number of chests above twenty and up to fifty, and five rupees for any larger number of chests

15 The fees mentioned in rule 14 shall be realized by the Intendant before delivery of chests to the shippers, and shall be remitted daily by him to the Superintendent, Customs Preventive Service, for the remuneration of Preventive Officers, who may be employed beyond the usual working hours

16 The Presidency Opium Godowns will be kept open free of charge for the delivery of opium chests to shippers between the hours of 10-30 A M and 5 P M on ordinary working days, and between the hours of 8 A M and 7 P.M. on days (including Saturdays and gazetted holidays) preceding the sailing of steamers in which the shipment of opium has been notified For delivery of opium chests outside these hours the Intendant shall require the payment of a fee of sixteen rupees in respect of each requisition, and a further fee of two annas in respect of each chest delivered No application for the delivery of opium chests shall be received by the Intendant after 9 P M

17 The procedure described in rules 9 to 15, both inclusive, is enjoined especially in the case of opium cleared from the godowns after 4-30 P M, but it may, on application by the shipper to the Intendant, be followed in the case of opium cleared before that time.

By order of the Board of Revenue, L. P,

J H KERR,

Offg Secretary.

2. The amendments which we have made in the Bill are, as far as possible, printed in italics, and all amendments of any importance are explained in the following paragraphs.

3. *Preamble* —We have inserted the words "by landholders" in the preamble, so as to make it quite clear at the outset that the Bill is not an Incumbered Estates Bill, but may be put into operation only upon the voluntary action of landholders themselves

4. *Clause 2.*—We have inserted words in sub clause (*h*) to make it clear that the word "son," as used in the Bill, includes a son born after the date of a settlement.

5 Additions have also been made to sub clause (*h*) in order to recognise adoptions made (i) after the execution of a settlement, by the adoptive father himself, or (ii) within five years after his death, by his widow, if acting under authority lawfully conferred by him. The word "lawfully" has been inserted in sub-clause (ii) in order to exclude adoptions made by a widow in contravention of the *Mithila* law

6 We have inserted definitions of "secured debt," "unsecured debt," "secured creditor" and "unsecured creditor," with reference to the new clauses for the protection of creditors which are explained below. We think some line must be drawn to exclude petty debts from the operation of the clauses just referred to, and have accordingly limited the new definition of "unsecured debt" to debts, demands and claims for sums exceeding Rs 500

7. We have altered the definition of the word "incumbrance," with reference to the new definitions mentioned in paragraph 6, *ante*

8. *Clause 3* —We have inserted provisoes to meet (*1*) cases in which, as under the Mitakshara law, an estate is owned by the family, and not by an individual, the principal member of the family having, beyond his share in the proprietorship, nothing but a right of management as *karta*, and (*2*) cases in which, as under the Muhammadan law, a landholder has only a share in an estate, coupled with a right of management over the estate. We consider it desirable that the Bill should extend to both Mitakshara families and Muhammadan families as well as to other classes of people, and the amendments which we have made will adapt clause 3 to such families.

9. *Clause 4* is new It definitely prescribes the signing and verification of applications for permission to settle an estate under the Bill, and states what particulars such applications are to contain, instead of leaving these matters to be dealt with, as was proposed by clause 26 of the Bill as introduced in Council, by rules to be made by the Local Government.

10 Although the Bill contains no clause to confine its application to estates of a particular value, we have inserted a sub-clause, (*b*), to require the furnishing of particulars as to value, in order that the Local Government may have a ready means of estimating the suitability of an estate for settlement

11 Sub-clause (*c*) is important. It prescribes the inclusion, in all applications, of a full list of all incumbrances enforceable against the applicant or against the estate which it is proposed to settle By virtue of the restriction inserted in the new definition of "unsecured debt," this sub-clause will not apply to debts due to unsecured creditors, not exceeding Rs. 500 in the case of each such creditor All secured debts, however, must, as the Bill now stands, be mentioned in applications, whatever may be their amount.

12. *Clause 5* is also new. It requires an applicant who proposes to settle an estate belonging to a joint Hindu family, or to co-sharers, to send with his application a declaration by himself as to his powers, and a declaration by his co owners or co-sharers, as the case may be, that they are willing to assent to the proposed settlement Provision is made, in sub-clauses (*2*) and (*3*), for the latter declaration being made by guardians or committees, where any co-owners or co-sharers are minors or lunatics

If the assent of any co-owner or co-sharer should not be obtainable, then the proposed settlement would have to be abandoned, or might, in the case of an estate held by co-sharers, be restricted to the shares of such co sharers as are willing to assent to it.

13. *Clause 7*.—We have amended this clause so as—

(*1*) to require the Local Government to send a copy of every application, when in order, to each creditor and to each co owner or co-sharer who has declared himself willing to assent to the settlement of the estate, and

(*2*) to declare that the notification in the Gazette must set forth the application and its accompanying declarations, instead of merely stating the purport of the application.

14. *Clause 8*.—Sub-clause (*ii*) has been amended so as to require, in every case in which incumbrances are not discharged prior to making a settlement,—

(*1*) that a condition be made for the insertion in the settlement of provisions either for the discharge of the incumbrances or for their continuance, with or without modification, and the payment of interest in either case, and

(2) that such provisions shall be subject to the assent of the creditors as well as the approval of the Local Government.

The Bill, as observed in paragraph 3 *ante*, is not an Incumbered Estates Bill, and the amendments just mentioned are designed in order to prevent its being applied to any estate which is insolvent or heavily indebted, while they will also meet objections taken by the Bengal Chamber of Commerce and the Calcutta Trades Association, with which we are in unison, as to the insufficiency of the Bill, as introduced in Council, to protect the interests of creditors.

The provision as to the continuance of incumbrances will meet such cases as that of the Bettiah loan.

15. Sub-clause (2) of clause 8 empowers the Local Government to refer to a Civil Court disputes as to the right of the applicant to make a settlement; and sub clause (3) declares that the decision of the Court on any such reference shall be deemed to be a decree, and shall be appealable to the High Court.

16. *Clause 9* is new. It declares explicitly that the rejection of an application shall be no bar to the making of a fresh application if the applicant shows sufficient reason for so doing.

17. *Clause 10 (1).—Meaning of the expression "three generations"*—The object of the Bill, as explained by the Hon'ble Member in charge when introducing it in Council, is to provide a procedure for the settlement of estates for three generations. Some doubt has been felt as to the precise meaning which should be attached to the expression "settlement for three generations"

18. The Bill, as introduced in Council, was drawn on the assumption that A, the settlor (the first tenant for life), A's son B (the second tenant for life) and A's grandson C (the ultimate holder) constitute the three generations who are to be benefited by a settlement made under the Bill.

19. On the other hand, it has been contended that the expression in question should be interpreted as meaning that there should be three tenants for life, namely A, the settlor (the first tenant for life), A's son B (the second tenant for life), and A's grandson C (the third tenant for life), the ultimate holder being A's great-grandson, D

20. It has been urged that, if there are to be only two tenants for life (including the settlor), the settlor will derive but little benefit from the Bill, inasmuch as under the existing law he can already limit his own interest to a life tenancy, and, if he is subject to the *Dayabhaga* law, he can also limit the interest of his son (if in being at the time of making the settlement) to a life tenancy; so that all that he would gain by the Bill would be a power to limit to a life tenancy the interest of an unborn son, and a power to grant the estate in remainder to an unborn grandson.

21. Again, it has been urged that, in order suitably to give effect to the policy of settling an estate for three generations, each of these three generations should be mere tenants for life, the ultimate vesting of the estate being postponed to the fourth generation.

22. We are of opinion that the settlor should be excluded in determining the "three generations" who are to be benefited by the Bill, and that accordingly there should be two tenants for life between him and the ultimate holder, and we have revised clauses 2, 10 (1), 11 and 12 (2) so as to give effect to this recommendation.

23. *Clause 10 (2).*—Sub-clause (2) of clause 10 is almost entirely new. It confines the declaration as to the ultimate absolute ownership of an estate to the case of estates to which the settlor was, immediately before the execution of the settlement, solely entitled, and it introduces two clauses to declare that, where the estate belonged to a joint Hindu family, the ultimate holder shall merely be the *karta* or manager of the estate, and that, where the estate belonged to co-sharers, the ultimate holder shall merely have the sole right of management over the estate.

The Bill, as now settled, will therefore provide for the restoration of the rights of co-owners and co-sharers, or their descendants, upon the expiration of a settlement.

24. We have, however, added words to clause 10 (2) in order to require the insertion, in deeds of settlement, of an express provision to the effect that the gift to the remainderman is subject to the terms of any fresh settlement

made by a tenant for life. Ordinarily the person who would execute a fresh settlement would be the second or third tenant for life, and the main object of a fresh settlement would be to convert the remainderman of the preceding settlement into a life tenant, so as to carry on the settlement for one more generation, and, if an express saving of the right to make such a conversion be inserted in the deed itself, there will be the less reason for objections on the part of the remainderman to the limitation of his interest.

25. *Clause 10 (3)*—We have amplified this clause so as to make it applicable to cases in which the eldest or only son of the settlor has predeceased him, as well as to cases in which the eldest or only son is a person of proved incapacity or defect of character.

26. We have also inserted words in clause 10 (*3*) in order to provide in these cases that the second tenant for life may be the son of the deceased or excluded son (as an alternative to another son of the settlor) and that the third tenant for life may be either the son of the second tenant for life or the son of the deceased or excluded son

27. *Clause 11.*—We have revised this clause so as to declare expressly that a deed of settlement may provide for an estate being vested, on failure of previous tenants, only in some person who is descended from the settlor or the settlor's father in the direct main line.

28. *Clause 12 (2)*—We have revised sub-clause (*b*) so as to require the insertion in settlements of provisions for the maintenance of (*1*) co-owners and co-sharers (if any) who have assented to the settlement of their shares, and (*2*) all persons who, at the time of the execution of the settlement, are, or thereafter may be, legally entitled to maintenance out of the estate.

29. We have made an addition to sub clauses (*c*), (*d*) and (*e*) to require the insertion in settlements of provisions for the management of the estate after the death of a tenant for life and pending the adoption of a son under authority lawfully conferred by him.

30. *Clause 12 (3).*—We have made an addition to authorise the payment of expenses and remuneration to trustees

31 *Clause 12 (4)*—We have inserted words to make it clear that the Local Government may permit the insertion in a settlement of any provisions desired by the settlor, and we have added a proviso to declare that no provisions inserted in pursuance of this sub-clause shall operate to the prejudice of any creditor unless assented to by him.

32. *Clause 13.*—The proviso is new. The object of sub-clauses (*ii*) and (*iii*) is to authorise the making of supplementary settlements in respect of property belonging to co-owners or co-sharers, and they will admit of the addition of any such property which may have been excluded from a settlement in the first instance by reason of the minority of some of the co-owners or co-sharers.

Sub clause (*3*) has been amplified so as to bring into full operation, in respect of supplementary settlements of property, the preceding clauses of the Bill relating to first settlements.

33. *Clause 14.*—This clause is new. It gives to settlors power to apply for permission to make a supplementary settlement for the purpose of substituting new second and third tenants for life for those appointed by a former settlement, in cases in which the second tenant for life appointed by such former settlement dies or shows incapacity or defect of character after its execution.

34. *Clause 16.*—This clause is almost entirely new. It declares, on the lines of preceding clauses, the procedure to be followed in dealing with applications for permission to make (*1*) supplementary settlements in respect of persons, and (*2*) fresh settlements.

35. *Clause 17.*—Sub-clause (*1*) and part of sub-clause (*5*) repeat provisions of the Bill as introduced, but sub-clauses (*2*) to (*4*) are new.

Sub-clause (*2*) declares that all property included in prior settlements must be included in any fresh settlement that may be made. The object of the sub-clause is to prevent the diminution of creditors' security by the making of a fresh settlement. If it should be desired, for any reason, to exclude any property, that can be done under clause 24 (*b*), before the fresh settlement is made, in which case the rights of creditors will be secured by clause 25.

Sub-clause (3) declares that no property shall be included in a fresh settlement unless it has been included in a former settlement. The object of this clause is to prevent the addition to settled estates by means of a fresh settlement of property which may be encumbered. As the procedure to be followed in dealing with applications for permission to make fresh settlements does not include the making of any inquiry as to incumbrances, it is necessary to exclude fresh property from such settlements. If a tenant for life should wish to add such property, he should do so by means of a supplementary settlement, which can, as the Bill is drawn, only be authorized after full inquiry as to incumbrances has been made.

Sub clause (4) declares, by way of further security, that if any incumbrance dealt with in a former settlement is still in existence when a fresh settlement is made, the fresh settlement shall not affect the rights of the creditor unless he assents to it.

36. *Clause 18.*—We have inserted a sub-clause providing that in the case of fresh settlements and supplementary settlements in respect of persons the stamp duty shall be a nominal sum of ten rupees.

37. *Clause 19.*—In view of the special stamp duty on settlements which it is proposed to require by clause 18 of the Bill, it is, we think, desirable to prevent all possibility of succession duties being charged on property, debts or securities covered by a settlement We have accordingly declared in clause 19 that probate, letters of administration or a succession certificate need not be taken out in respect of such property, debts or securities, and we have added a sub-clause to declare that if any probate, any letters of administration or any succession certificate should purport to cover any such property, debts or securities, no court-fee shall be levied in respect thereof.

38. *Clause 20*—In order to prevent difficulties arising from the absence of probate, letters of administration or a certificate granted under the Succession Certificate Act, 1889, we have empowered the Local Government to grant a special certificate to the next holder under a settlement, after the death of any tenant for life.

39. *Clause 21.*—Sub-clause (2) is new. It requires the local publication of information as to the purport of instruments of settlement

40. *Clause 22.*—We have added at the end of this clause the words "which is inconsistent with the provisions of this Act," in order to make it clear that the laws and customs referred to in sub-clauses (*a*), (*b*) and (*c*) are not intended to be abrogated in so far as they are consistent with the provisions of the Bill.

41. *Clause 23.*—We have added sub-clauses to require that an instrument revoking a settlement be executed, stamped and registered in the same way as an instrument creating a settlement

42. *Clause 25* is new. It declares expressly that incumbrances shall revive upon the revocation, cancellation or amendment of a settlement.

43. *Clause 26* is new. Its object is to prevent disputes by declaring that rents of a settled estate, which were in arrear immediately before the death of a tenant for life, shall belong to the next holder of the estate, and not to the heirs, executors, administrators or assigns of such tenant.

44. *Clause 27.*—We have struck out the words "for any greater interest or time than during his life," which appeared at the end of the corresponding clause (17) of the Bill as introduced in Council. We consider that tenants for life should be debarred from alienating any part of a settled estate or the profits thereof for *any* period, except, of course, in the cases provided for in clauses 28 and 29 of the Bill; for if alienations were allowed the objects of the Bill would be defeated.

45. *Clause 28.*—We have transferred from the Local Government to the Civil Court the power to sanction a sale of a settled estate or part thereof by a

tenant for life. Such a power can, in our opinion, be best exercised by a judicial tribunal. We have provided for notice of a proposed sale being given to all persons who, but for the settlement, would have been co-owners or co-sharers, and for their objections (if any) being heard and duly considered before the Court determines to sanction a sale.

46 *Clause 29* —We have excepted leases up to seven years and leases in perpetuity from sub clause (*2*), so as to admit of a premium or fine being taken on them without the consent of the Collector

47. We have altered sub-clause (*3*) so as to allow the tenant for life to keep to his own use one-fifth of any premium or fine that he may stipulate to be taken on a lease from year to year or for a term of years, and we have added a proviso to authorise the payment of expenses incurred by, and remuneration to, the trustee.

48. We have struck out, as being unnecessary, the provision in sub-clause (*4*) which required that rent due under a lease of a settled estate should be payable quarterly.

49 *Clause 30* —We have limited the range of this clause so as (*1*) to confine the exemption to leases of raiyati holdings and (*2*) to secure the application in all cases of sub clause (*3*) of clause 29, as to the investment of a premium or fine taken on a lease

50 *Clause 31* —This clause is new It prohibits the sale of a settled estate or any part thereof, during the life of a tenant for life, in execution of a decree, but provides for the appointment of a Receiver to recover the sum decreed We consider the clause to be desirable in order to restrain, so far as is practicable, the wasting of an estate by a tenant for life It leaves untouched the right of a landholder to bring a patni tenure to sale under the Bengal Patni Taluks Regulation, 1819.

51. *Clause 32.*—We have inserted words in sub-clause (*2*) to secure that, when an estate is sold to the tenant for life, the resulting surplus should be paid to him. In such a case it would be unfair that the surplus should be invested in immoveable property, to be added to the settlement, in addition to requiring that the property which the tenant has purchased should remain subject to the settlement.

52. *Sub-clause* (*3*) is new Its object is to prevent *benami* purchases by a tenant for life.

53. *Clause 33.*—We have altered this clause so as to make it clear that, when arrears of revenue accrue in respect of part only of a settled estate, that part only may be attached by the Collector or dealt with by the Court of Wards.

54. We have altered sub-clause (*3*) so as to authorise, instead of to compel, the Court of Wards to retain charge of an estate until the death of the tenant for life and the attainment of majority by the next holder.

55 *Clause 36* —We have added a sub-clause authorizing the Local Government to make rules as to the payment to trustees, out of trust money, of expenses properly incurred by them and remuneration for their services.

56. *Clause 37* is new It declares that the provisions of the Court of Wards Act, 1879, so far as they are not inconsistent with the terms of settlements duly made under the Bill, shall be applicable to settled estates The object of the clause is to make it clear that the Court of Wards may take charge of a settled estate if, for example, the holder of the estate has been adjudged by a Civil Court to be of unsound mind and incapable of managing his affairs and the settlement contains nothing to oust the jurisdiction of the Court of Wards.

57 *Clause 38* is also new. It saves the rights of secured creditors whose incumbrances have not been set forth by an applicant for settlement, or who

may not have assented to conditions inserted in an instrument of settlement for the continuance or discharge of their incumbrances.

58 We recommend that the Bill, as now amended, be passed

Sale of settled estate for arrears of land-revenue &c.

32. (*1*) Notwithstanding anything contained in the Bengal Land-revenue Sales Act, 1859, or any other law, no settled estate or part of a settled estate shall, without the previous sanction of the Local Government, be sold, during the life of any tenant for life thereof, for an arrear of land revenue or for any other arrear which is recoverable in the same manner as an arrear of land-revenue. (*The Bengal Settled Estates Bill—Part VIII—Miscellaneous—Clauses 34-38*)

(*2*) Upon the expiration of the period referred to in sub-section (*1*), the Collector shall deduct from the proceeds of the management the amount of the said arrear and of any similar arrears that may have accrued during such period, and any interest due thereon, and the expenses incurred in the management, and shall then— [*Cf* Ben Act IX of 1879, s 23 *prov*]

(*a*) pay the balance of such proceeds to the person then entitled to hold the estate, and

THE following Report of the Select Committee on the Bengal Public Parks Bill, together with the Bill as amended by the Committee, is, by order of the President, published for information —

REPORT OF THE SELECT COMMITTEE.

WE, the undersigned, Members of the Select Committee appointed to consider the Bill for the regulation of Public Parks in Bengal, have considered the Bill and the papers noted in the margin, and have the honour to submit this our Report, with the Bill as amended by us annexed hereto

(1) Letter, dated the 9th January, 1904, from Babu Shrish Chunder De [Paper No 1]
(2) Letter from the Secretary, Muhammadan Defence Association, No $\frac{190G}{661P}$, dated the 11th January, 1904 [Paper No 2]

2 The amendments which we have made in the Bill are printed in italics, and the principal amendments are explained in the following paragraphs.

3 *Clause 3* is new. It empowers the Local Government to declare that any specified land, bridge or pontoon shall, for the purposes of the Bill, be deemed to be included in any park The clause is required in order to admit of the extension of the Bill to the pontoon at the river entrance to the Royal Botanic Garden, Sibpur, since offences against some of the rules referred to in clause 4 of the Bill might be committed there The clause will also be useful in other cases which need not be mentioned in detail

4 *Clause 4* —The list of particular purposes for which rules may be made has been amplified

5 *Clause 6* —The word "detained" has been substituted for the word "arrested," because the latter word implies a touching or confining of the body of the offender (*see* section 46 of the Code of Criminal Procedure, 1898), and such action will not ordinarily be necessary in the cases referred to in this clause, which are those of an offender refusing to give his name and residence

The maximum period for which an offender may be detained under this clause has been reduced from 24 to 12 hours

6 *Clause 7.*—For clause 7 of the Bill as introduced in Council we have substituted a clause which will have the effect of bringing superintendents and park-durwans within the category of public servants for the purposes of Chapters IX and X of the Indian Penal Code.

7 We recommend that the Bill, as now amended, be passed

The mean pressure, temperature, etc, are deduced from the traces of the Barograph and Thermograph and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed at the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

◬, dew.

Rules for regulating the use of Motor-Cars and Motor-Cycles

No 1126J.—The 8th February 1904.—In exercise of the powers conferred by section 3 of the Bengal Motor-Car and Cycle Act, 1903, the Lieutenant-Governor is pleased to make the following rules for regulating the use of motor-cars and motor-cycles in streets and public places in the town and suburbs of Calcutta and in the town of Howrah —

Calcutta.
Howrah.

1 In these rules the expression "motor-car" does not include a traction engine, and only includes such vehicles, carriages or other means of conveyance or engines as, being propelled or capable of being propelled, either entirely or partially, by mechanical power, run on ordinary roads or streets as distinguished from such as run on special rails

2 A motor-car or motor-cycle shall not be used unless it is so constructed as to admit of its being at all times under full control so as to prevent undue interference with passenger or other traffic, and unless it is maintained in such a condition as to prevent danger to the public or to any person riding on the car or cycle

3 A motor-car or motor-cycle shall not be used unless it is provided with two independent brakes or other means of stoppage approved by the Commissioner of Police, in good working order and of such efficiency that the application of either will be capable of forthwith stopping the car or cycle

4. (1) No motor-car or motor-cycle shall be used until it has been registered by the Commissioner of Police, Calcutta

(2) The fee for such registration shall be Rs 16 except in the case of motor-cycles, for which it shall be Rs. 4 The Commissioner of Police may remit the whole or any part of the fee in the case of any motor-car or motor cycle that has been registered within the preceding 12 months elsewhere in British India under any law or regulation in force

(3) The Commissioner of Police shall assign a distinguishing number to the car or cycle, and shall record the name and address of the owner Every transfer of ownership or change of address shall be forthwith intimated to the Commissioner by the registered owner.

(4) In the case of a manufacturer of, or dealer in, motor cars or motor-cycles, a general number may, on payment of an annual fee not exceeding Rs 30, be assigned to be used on any car or cycle when on trial after completion, or when on trial by an intending purchaser, or when being used by a person licensed as in rule 7 for the purpose of instructing any other person in the use of the car or cycle

(5) Before registering a motor-car or motor-cycle, the Commissioner of Police shall, among other matters, satisfy himself that it conforms to the conditions laid down in these rules as to brakes or other means of stoppage, lamps, numbers, bell or other instrument for notifying approach, and means of locking or disconnecting the mechanism to prevent the vehicle being started in the driver's absence.

(6) Should the Commissioner of Police, at any time after a car or cycle has been registered, have reason to believe that it has become defective in any such respect or that it has not been maintained in such a condition as to prevent danger to the public, he may, after notice to the owner, direct that the registration be cancelled until such time as the defects are rectified to his satisfaction.

5. (1) No motor-car or motor-cycle shall be used unless the number referred to in the preceding rule is attached to it in a conspicuous place, and to the satisfaction of the Commissioner of Police, in large white figures on a black ground, legible at a reasonable distance, on the front and back of the car or cycle, and on the back of any vehicle drawn by the car or cycle

Each figure on a motor-car must be at least 3½ inches high, with a margin of half an inch both above and below it and a margin of an inch on either side thereof. On a motor-cycle the figures need be only half the above dimension, and the front number may be shown on each side of a plate projecting forward

(2) During the time when lamps are required by rule 6 to be kept lit, the number at the back of the car or cycle, or of any vehicle drawn behind it shall be illuminated in a manner to be approved by the Commissioner of Police, so as to be legible at a reasonable distance; but it is not necessary that the number-plates for day and for night use should be the same.

(3) The said numbers shall not be in any way obscured or rendered or allowed to become not easily distinguishable

6. (1) To every motor-car when in use at night shall be attached two lamps, one on either side, exhibiting a white light forward, visible within a reasonable distance A red light similarly visible shall also be exhibited in the reverse direction either by the said lamps or by a separate lamp attached to the back of the car

(2) Every motor-cycle, when in use at night, shall carry a lamp in front, exhibiting a white light forward, visible within a reasonable distance.

(3) The said lamps shall be kept lit and free from all obstructions so long as the car or cycle is in use during the period between half-an-hour after sunset and half-an-hour before sunrise.

7. (1) No person shall drive a motor-car or motor-cycle unless he holds a subsisting license granted by the Commissioner of Police, Calcutta, authorising him to drive a motor-car

or a motor-cycle as the case may be, and no person shall employ any one to drive a motor-car or motor-cycle who is not so licensed

(2) A fee of Rs 10 shall be payable for such license in respect of a motor-car and of Rs. 2 in respect of a motor-cycle The Commissioner of Police may remit such fee in the case of any person holding a subsisting license granted elsewhere in British India under any law or regulation in force

(3) A license shall remain in force for such period, not being less than twelve months, as the Commissioner of Police may direct The fee payable on renewal of a license shall be one-fourth of the amounts specified above

(4) Such license may be cancelled by the Commissioner of Police, or may be suspended for such period as he may deem necessary, when the holder has been convicted of an offence under the Bengal Motor-Car and Cycle Act, 1903, or of an offence under any other Act in connection with the use of a motor-car or motor-cycle.

8 (1) A motor-car or motor-cycle shall not be allowed to stand in any street or public place unattended by a person holding a subsisting license under rule 7, unless the mechanism be locked or disconnected in such a way that the car or cycle cannot be put in motion in the absence of the driver

9 A motor-car or motor-cycle shall not be driven in a street or public place recklessly or negligently, or at a speed or in a manner which is likely to endanger human life, or to cause hurt or injury to any person or animal or damage to any goods carried in any vehicle or by any person, or which would be otherwise than reasonable and proper, having regard to all the circumstances of the case, including the nature, condition and use of the street or public place and to the amount of traffic which is actually on it at the time, or which may reasonably be expected to be on it

Provided always that under no circumstances shall a motor-car or motor-cycle be driven at a greater speed than 12 miles an hour

10 A motor-car or motor-cycle shall not be driven on any footway, nor shall such be driven in any street or public place where such traffic may for the time being be prohibited by the Commissioner of Police, Calcutta, or by the Magistrate of Howrah, as the case may be, as being especially dangerous

11 (1) The person in charge of a motor-car or motor-cycle shall cause the car or cycle to stop and to remain stationary so long as may reasonably be necessary—

(a) when requested to do so by any police officer for the purpose of regulating traffic or of ascertaining his name and address, or for any other reasonable purpose, or

(b) when requested to do so by any person having charge of a restive horse, or

(c) when an accident occurs to any person or to any animal or vehicle in charge of any person, owing to the presence of the car or cycle on the road.

(2) The request referred to above may be made by such police officer or person putting up his hand as a signal to stop or at night in such manner as the Commissioner of Police may direct

(3) The person in charge of the car or cycle shall, on the request of any police officer or, on the occurrence of an accident such as is referred to in clause (1) (c) above, on the reasonable request of any other person, truly state his name and address and the name and place of abode or business of the owner of the car or cycle.

12. The person in charge of a motor-car or motor-cycle shall obey all direction of police officers posted or stationed at crossings or other places for the regulation of traffic.

13 The driver of a motor-car or motor-cycle shall keep on the left side of the road, except that he shall keep to the right of any vehicle or horse proceeding in the same direction which he may be desirous of passing

14. The driver of a motor-car shall not cause the car to travel backwards for a greater distance or time than may be requisite for purposes of safety

15. Every motor-car or motor-cycle shall carry a bell or other instrument capable of giving audible and sufficient warning of the approach or position of the car or cycle; and the driver shall sound such bell or instrument whenever it may be necessary to do so.

16. The driver of a motor-car shall not be in such a position that he cannot have control over the same.

17 The person in charge of a motor-car or motor-cycle shall not allow it to stand in any street or public place so as to cause undue obstruction thereof.

XIII.—There shall be two kinds of inspection of boilers—

(a) When the certificate granted under this Act is about to expire, or when it has been revoked or suspended under section 8 of the Act and the owner desires that it shall be renewed, a thorough examination, inside and outside, shall be made by one of the Inspectors in person, for which purpose the boilers must be empty, cool, and clean, and flues swept, and, if required by the Inspector, any parts or settings must be removed for examination of the boiler in every part

(b) An ordinary inspection may be made by an Inspector at any time for the purpose of ascertaining whether a certificate should be revoked or suspended under section 8 of the Act.

XIV.—The Vice-President and Secretary shall (unless the owner consents to have the boiler ready for inspection on an earlier date approved by the Vice-President and Secretary) give one week's notice of every intended examination under rule 13 (a), and warn the owner that if the boiler is not empty, cool, clean, and ready for inspection on the date named, there may be delay in issuing or renewing a certificate, which might thus render the owner or person in charge of the boiler liable to a fine of Rs 500 under section 11 of the Act.

(a) Provided that the inspection of boilers in the Raniganj, Giridih, and Gobindpur subdivisions, in the districts of the Sonthal Parganas and Patna, or in the Municipalities of Burdwan and Bhagalpur shall be made during the months of November to May inclusive, and in the towns of Dacca and Narayanganj during the months of June and July, and the Vice-President and Secretary shall give 14 days' notice of the dates of such inspections

(b) If any boiler needs inspection at other times to that specified in sub clause (a), either as being a new boiler requiring a certificate, or as being a boiler which the owner from any other reason wishes to have inspected, it may, on the application of the owner, manager, or agent, be so inspected

XV.—The Vice-President and Secretary shall submit to the Commissioners at each meeting, the Inspectors' reports on the boilers inspected in the form of a diary, which shall be recorded in the office

XVI.—Fees for the inspection of boilers and delivery of certificates shall be charged according to the following scale —

	Rs
Boilers up to 10 H.-P	12
„ above 10 „ and up to 20 H.-P	15
„ „ 20 „ „ 40 „	18
„ „ 40 „ „ 60 „	21
„ „ 60 „ „ 80 „	25
„ „ 80 „ „ 100 „	30
„ „ 100 „ and upwards	35

But if any boiler is certified for a period of less than one year, the fee payable may be reduced to one twelfth of the above amount for each month or part of a month in the said period, provided that the minimum fee shall in no case be less than one-fourth of that shown in the scale

An additional fee of Rs 50 to that of the above will be charged for the inspection of a boiler on a Sunday.

Formula for calculating horse-power

For tubular and internally fired boilers, area of grate multiplied by 2 = H.-P

For egg ended and externally fired boilers, area of grate multiplied by 1½ = H.-P

XVII.—In addition to the above fees, an Inspector's travelling expenses shall be realised from such owners of boilers in the extended jurisdictions as may apply for inspection of their boilers out of season, as well as from owners whose boilers are not ready for inspection on the first visit made on their application, whether in Calcutta and its Suburbs and in Howrah or in the added areas, for every additional visit paid by the Inspector for the completion of inspection

XVIII.—Registers shall be kept in the Boiler Commission Office of all boilers inspected, in which full particulars of the boilers shall be entered in the manner prescribed by the Commissioners, and a number shall be allotted to each boiler corresponding to the number of entry regarding it in the register

The registered number of a boiler is to be conspicuously cut into the front plate by block type three-eighths of an inch large, with a Crown mark, and the initial letter of the register over the figures for Calcutta, Raniganj or other register, as the case may be, the marks being enclosed by a rectangular figure, 2½ inches in length by 1¾ inches in breadth, made with a chisel, and the Inspectors are to state in their declarations that this has been done

XIX.—The Commissioners shall from time to time, as may seem necessary, make regulations as to the inspection of steam-boilers and the fittings to be required by Inspectors for steam-boilers under the provisions of section 6 of Act III of 1879.

NOTIFICATIONS OF THE BOARD OF REVENUE

No 859B

NOTIFICATION.

MISCELLANEOUS REVENUE DEPARTMENT

MISCELLANEOUS BRANCH

THE HON'BLE MR C E BUCKLAND C I E

Dated Calcutta, the 28th January 1904

IN supersession of the rules published in the Board's Notification No 1190B, dated the 11th June 1898, and with reference to clause 11 of the rules published in Notification by the Government of Bengal No 1225 S R, dated the 21st February 1898, the following revised rules are laid down to regulate the export of opium by sea from Calcutta —

1 Opium may be exported by sea from the port of Calcutta if it has been purchased from the Government at a public sale held by the Board of Revenue, and is covered by a pass or certificate granted by the Board A certificate is a document authorising the Collector of Customs to allow the shipment of the opium specified in it The currency of a certificate is four days, exclusive of its date of issue, and exclusive of Sundays and Custom House holidays No pass or certificate for the export of opium will be issued on the same day on which the opium has been sold.

2 Shipping bills for exportation of opium must be printed in red ink and presented at the Custom House in duplicate, accompanied by a certificate in such form as the Board may direct The duplicate on which the pass is granted will be returned to the shipper to obtain delivery from the opium godowns, the original being forwarded to the gate officer on the wharf to expedite the passing of the opium out of the Custom House

3 If any opium covered by a certificate is not removed from the Presidency Godowns within a period of four days from the date of the issue of the certificate, the holder of the certificate must, within 24 hours next after the expiry of the said period, apply to the Board of Revenue for a fresh certificate

4 If any opium has been removed from the Presidency Godowns within the said period of four days, and has been passed out by the Customs authorities for export, but has not been shipped within the said period by reason of the opium being shut out from the ship in which it was intended to be shipped, or for any other reason, the shipper must, without delay, apply to the Board for a fresh certificate, and must, pending the issue of such certificate, either (*a*) return the opium to the Presidency Godowns, with the permission of the Collector of Customs, or (*b*) keep it, with the permission of the said Collector, under sealed hatches at a mooring ghat to be fixed by the Superintendent of the Calcutta Customs Preventive Service

5 A charge of ten rupees shall be made for the services of the Customs Officer deputed to supervise the returning of opium to the Presidency Godowns, or the sealing of hatches, in pursuance of rule 4 of these rules

6 (*a*) On ordinary working days, no treasury receipt in payment of opium, and no pass, will be accepted by the Board after 3-30 P M, and no certificate will be granted after 4 P M

(*b*) On Saturdays, no receipt or pass will be accepted after 1-30 P M, and no certificate granted after 2 P M

(*c*) A certificate is not transferable, and no one but the person named on the face of it by the Board will be entitled to export opium on it

7 The certificates granted by the Board are to be returned to the Board, within thirty days, duly cancelled

8 A fee of five rupees will be charged to a shipper on presentation of shipping bills after 4 P M. on the day of clearance of the China steamer

9. Opium intended for export, which is not cleared from the godowns before 4-30 P M, shall be conveyed to the steamer or ship from the ghat opposite the opium godowns in covered cargo-boats with properly secured hatches

10. As soon as the Intendant is aware that clearances will be made after 4-30 P M, he shall make immediate report to the Collector of Customs, who will at once appoint one or more Preventive Officers, as may be necessary, to be in attendance at the ghat at which the cargo-boats lie In his report the Intendant shall mention the probable number of chests which will be removed during the evening, and each day, as long as clearances are going on, he shall furnish the Collector of Customs with a similar report

11 The Preventive Officer at the ghat shall examine all boat-notes and chests and see the latter placed in the hold of the cargo-boat He shall then secure and seal, with a distinctive mark, the hatches or other openings or doors of the cargo-boat by which access

may be had to the hold, before allowing the boat to proceed to the steamer or ship He shall also make an entry in the boat-note, specifying that the hatches or other openings or doors have been sealed.

12 The Preventive Officer on board the receiving steamer or ship shall carefully examine the seals affixed to the hatches or other openings or doors of a cargo-boat laden with opium, as soon as the boat arrives alongside the vessel, and shall not allow the seals to be broken in any case until he is prepared to receive the opium on board, and to superintend the removal of the chests from the hold of the cargo boat

13 If it appears to the Preventive Officer on board the receiving vessel that the seals placed on the hatches or other openings or doors of a cargo-boat have been broken in transit, or have been in any way tampered with, he shall immediately bring the matter to the notice of the officer in charge of the vessel, and shall examine each chest carefully If any theft of opium is discovered, the Preventive Officer shall make an immediate report to the River Police and to the Collector of Customs, mentioning at the same time the number of the cargo-boat and the name of the owner and *manjhi*

14 A shipper who removes his chests of opium from the Government premises after 4-30 P M shall be required to pay a fee of two rupees for any number of chests up to twenty, three rupees for any number of chests above twenty and up to fifty, and five rupees for any larger number of chests

15. The fees mentioned in rule 14 shall be realized by the Intendant before delivery of chests to the shippers, and shall be remitted daily by him to the Superintendent, Customs Preventive Service, for the remuneration of Preventive Officers, who may be employed beyond the usual working hours

16 The Presidency Opium Godowns will be kept open free of charge for the delivery of opium chests to shippers between the hours of 10-30 A M and 5 P M on ordinary working days, and between the hours of 8 A M and 7 P.M on days (including Saturdays and gazetted holidays) preceding the sailing of steamers in which the shipment of opium has been notified For delivery of opium chests outside these hours the Intendant shall require the payment of a fee of sixteen rupees in respect of each requisition, and a further fee of two annas in respect of each chest delivered No application for the delivery of opium chests shall be received by the Intendant after 9 P M

17 The procedure described in rules 9 to 15, both inclusive, is enjoined especially in the case of opium cleared from the godowns after 4-30 P M, but it may, on application by the shipper to the Intendant, be followed in the case of opium cleared before that time
